JUSTNEW
MACHINERY SOURCING & HIRE

COMPANY OVERVIEW

Heavy machinery. Sourced for your operation.

Machinery sourcing and hire for mining, construction, infrastructure and other sectors in Zimbabwe.

SOURCE MACHINERY

Start with the application, machine type, capacity, preferred condition and delivery timing. Discuss suitable equipment and the scope of the proposed supply.

ENQUIRE ABOUT HIRE

Set out the job, site, working period, operating hours and operator or transport requirements. Confirm the arrangement through a project-specific quotation.

Mining at our core. Capability across sectors.

JUSTNEW
MACHINERY SOURCING & HIRE

EQUIPMENT AND ENQUIRIES

Start with the work.

Explore machinery requirements across nine equipment categories.

Excavation & earthmoving

Loaders & material handling

Dump trucks & haulage

Roadbuilding & compaction

Crushing, screening & processing

Lifting, forklifts & access

Drilling & underground machinery

Attachments, components & parts

Mining & site applications

A clear brief makes the difference.

Include the machine type and quantity, application, project location, required date, capacity or attachment, and whether you need sourcing, hire or both. Add a JN image reference or supporting photo when helpful.
